* The Fund's Current Portfolio Yield is a market-value weighted average of the current yields of the holdings in the portfolio, calculated as the coupon (base rate plus spread) divided by current price. The calculation does not take into account any fees, fund expenses or sales charges paid, which would reduce the results. The Current Yield for the Fund will fluctuate from month to month. The Current Yield should be regarded as an estimate of the Fund's rate of investment income, and it may not equal the realized distribution rate for each share class.
